

# StoneGate IPS Evaluation Campaign Rules

## Campaign Definition

- Free 10 working days trial period for StoneGate IPS.
- Requires signing of IPS Evaluation Agreement Form. By signing this form you do not commit to purchase anything, you only agree to the terms and conditions of the loan of the equipment.
- StoneGate IPS solution comes with standard support and evaluation license for the trial period.
- You will be responsible for loss, theft or damage to the equipment during the trial period.
- 10-working days' time line starts from the date of installation of StoneGate IPS. Stonesoft engineer will make the installation at the agreed date and site, free of charge. He will also be your contact point for any technical issues or problems during the evaluation period.
- In order to make the best out of the evaluation you commit to reserve required resources and time for the proper installation and evaluation.
- StoneGate IPS prevents attack traffic in normal production use. During the trial period StoneGate IPS will not stop any traffic in your network but it will alarm, log and inform you about incidents in your network. If you want to test also StoneGate IPS prevention capabilities in practise during the trial period, we recommend using an isolated test network.
- At the last day of the trial period Stonesoft engineer will present the StoneGate IPS reports from the trial period and explain the related findings to you. In this connection he will also remove the product.
- Soon after the evaluation Stonesoft salesperson will contact you to discuss your experiences on the evaluation and your willingness and time schedule for potential purchase of StoneGate IPS solution.

## Qualification Criteria

Once contact is taken or an application is submitted, your application will be reviewed by Stonesoft against these criteria:

- Accurate and complete contact information
- Feasibility of your company and its network for this campaign
- Real life benefits of StoneGate IPS solution for the applicant in question
- Applicant's timeframe for the evaluation
